

Dear Friends,

Welcome to the Holistic Child Health Newsletter.

The goal of my holistic pediatric practice, and of this newsletter, is to inform and support parents to become more empowered as the primary health care providers for their children.

Extending far beyond Western medicine's conventional treatments, holistic medicine and mindful parenting allow us to boost children's natural immunity, support their optimum health and wellness, safely heal any illnesses, and prevent disease-without dangerous side effects. Holistic medicine provides us with the tools to nurture the physical, emotional, social and spiritual health of your children.

Over the coming months and years, I intend to use this newsletter to address some of your concerns as parents, share information that you might want to add to your knowledge base, and inform you of important issues and current events that are happening in the news, and in your area.

Together we can heal the whole child. Naturally.

Yours in Health,

Lawrence B. Palevsky, MD

SPEAK OUT

US Attorneys Withheld Key Evidence of Vaccines Causing Autism - Leading Autism Researcher Reveals Federal Cover-Up

Robert F. Kennedy, Jr. and attorney Rolf Hazlehurst have petitioned the Inspector General of the Department of Justice (DOJ) to investigate possible legal misconduct by two federal government lawyers who they allege withheld and misrepresented evidence in the Autism Omnibus Proceeding (AOP), provided by Dr. Andrew Zimmerman, a key government witness, that showed that vaccines can cause autism.

The Autism Omnibus Proceeding (AOP) was an action by the vaccine court that lumped together more than 5000 claims that autism was caused by vaccine injury. All 5000 cases were to be decided by 6 selected test cases. Nearly all the cases in the AOP were dismissed in 2009. Zimmerman, who is regarded as perhaps the world's leading pediatric neurologist in autism research, had provided a report on Child Doe 77, one of the test cases in the Omnibus Proceeding, stating that in his professional opinion, vaccines caused Child Doe 77's autism, and could cause autism in other children who had a pre-existing mitochondrial condition. Subsequently, the Child Doe 77 case was settled by the government, and it did not serve as a precedent for any other cases, even though it had been specifically selected as a test case.

Attorneys Vincent Matanoski and Lyn Ricciardella represented the DOJ in the AOP and never disclosed the analysis prepared by Zimmerman of Child Doe 77 to the attorneys for the 5000+ petitioners as required by the rules of the vaccine court. Matanoski and Ricciardella are alleged to have engaged in additional actions to keep the Zimmerman report and settlement of the Child Doe 77 case hidden from the petitioners and the public.

The alleged cover-up was revealed by Dr. Zimmerman in a deposition taken for a medical malpractice case against the doctor who administered vaccines to Yates Hazlehurst, the child of Rolf Hazlehurst. Yates Hazlehurst was one of the test cases in the AOP. In the Hazlehurst malpractice suit deposition Zimmerman revealed that Yates Hazlehurst's regression into autism mirrored that of Child Doe 77 and would have been germane to deciding the Hazlehurst case in the AOP. If the allegations are founded there would be grounds to reopen the cases dismissed in the AOP, and other cases dismissed in the vaccine court.

Serious investigation into the DOJ attorney's alleged misconduct is necessary.

Please click on the link below to find out how to send messages to Michael Horowitz, Inspector General of the DOJ, your representatives in Congress, and the White House, calling for an investigation. And please call Horowitz's office and politely ask for an investigation of Matanoski and Ricciardella.

Michael Horowitz, Office of the Inspector General, (202) 514-3435

UPCOMING EVENT

BOOK EVENT

**OYSTER BAY
COMMUNITY CENTER
CHURCH STREET
OYSTER BAY, NY 11771**

**11/1/2018
7:30 PM**

Join us for a discussion, Q&A and book signing event with two of the three authors of "The HPV Vaccine On Trial", Kim Mack Rosenberg J.D. and Eileen Iorio.

\$8 to attend. Books sold at event (cash).

"This book is the most informative source you will find on the sordid machinations that went into convincing the public that Human Papillomavirus (HPV) vaccination is a wise health choice. The clinical trials never showed that it protects from cervical cancer. There is overwhelming evidence that the vaccine causes harm, both in terms of autoimmune disease and infertility or even death in rare cases. Please read this gripping book before deciding whether to allow your son or daughter to receive the HPV vaccine."

—Stephanie Seneff, PhD, Senior Research Scientist, MIT

RECOMMENDED BOOKS

No one wants to be sad, right? What if there were a magic potion to keep everything easy, comfortable, and happy? Would you take it? Travel to the land of Sangati where Asha and

her family were praying for rain during a mysteriously dry period that was causing everything to fall out of balance, and her grandmother to be ill. Little did she know that the Sky Beings in charge of the weather and natural cycles were all under a happiness spell. Indra had forgotten that her tears were important, however, not only to her, but to the very land below. Find out how she breaks the spell, saves Asha, her family, and heals the land with the sensitivity of her heart. Written by New York Times and international bestselling author and holistic psychiatrist, Kelly Brogan MD and her daughter, this story is offered as support for parents seeking to create room for feelings. Making room for feelings involves the acceptance of seemingly negative emotion as meaningful and even healing. The greatest gift we can give to our children, and to this planet, is permission to feel it all.

Powerful New Book:

**The HPV Vaccine on Trial:
Seeking Justice for a Generation Betrayed**
Learn what they don't want you to know.....

By Mary Holland, Kim Mack Rosenberg and Eileen Iorio

Sky Horse Publishing On Sale: October 2, 2018 / \$19.99 ISBN: 9781510710801

The HPV Vaccine on Trial: Seeking Justice for a Generation Betrayed paints a devastating picture of corporate and government conflicts of interest, negligence, and malfeasance in approving and promoting human papillomavirus (HPV) vaccines, touted to prevent cervical and other cancers. Coming out on the heels of recent New York Times revelations about astounding financial conflicts of interest at Memorial Sloan-Kettering Cancer Center, this groundbreaking book highlights the lack of transparency, manipulated science, and abuse of state power to market this medical juggernaut, already raking in over \$2.5 billion per year. Authors Holland, Rosenberg, and Iorio conclude:

- HPV vaccines have never been proven to prevent cancer of any kind.
- No participants in the original HPV clinical trials received true saline placebos.
- Japan no longer recommends HPV vaccines following a mass of injuries
- The clinical trials never investigated the vaccine's possible effects on human fertility or potential to cause cancer.
- The clinical trials show that the vaccines contribute to HPV lesions, and potentially cancer, in some women. Despite this, neither the manufacturers nor government agencies recommend prescreening to eliminate those with clear risk factors.
- Although the vaccine is targeted for 11-12-year-old children, and legal for children as young as 9, only a small fraction of clinical trial subjects was in this age range.
- Lawsuits against HPV vaccine manufacturers and government health agencies are progressing around the world, including the US, India, Japan, Colombia, Spain, and France.
- The US government earns millions in royalties from Merck and GSK, the vaccine manufacturers, for its role in the invention of HPV vaccine technology
- Although the US government proclaims HPV vaccines safe and effective, it has paid out millions of dollars to compensate families for death, brain injury, multiple sclerosis, ulcerative colitis, and other severe, debilitating conditions.

With praise from some of the world's leading scientists on aluminum, autoimmunity, and vaccines, this book fills a critical void, giving people information they need to make commonsense decisions about this vaccine. Written in plain language, The HPV Vaccine on Trial ultimately is about how industry, government, and medical authorities may be putting children in harm's way.

Author Mary Holland, M.A., J.D., is on the faculty at NYU School of Law, directs its Graduate Lawyering Program, and lives in New York City. Kim Mack Rosenberg, J.D., is a lawyer in private practice and lives in New York City. Eileen Iorio has practiced in the financial and health fields and lives outside New York City.

ABOUT DR PALEVSKY

Dr. Palevsky is a NYS licensed pediatrician, who utilizes a holistic approach to children's wellness and illness. Dr. Palevsky received his medical degree from the NYU School of Medicine in 1987, completed a three-year pediatric residency at The Mount Sinai Hospital in NYC in 1990, and served as a pediatric fellow in the ambulatory care out-patient department at Bellevue Hospital, NYC, from 1990-1991. Since 1991, his clinical experience includes working in pediatric emergency and intensive care medicine, in-patient and out-patient pediatric medicine, neonatal intensive care medicine, newborn and delivery room medicine, and conventional, holistic and integrative pediatric private practice. Dr. Palevsky is a diplomate of the American Board of Integrative Holistic Medicine, and Past-President of the American Holistic Medical Association. He received his pediatric board certification in 1990, and passed his pediatric board recertification exams in 1997, 2004, and 2011.

In his current practice in Northport, Long Island and Manhattan, NYC, Dr. Palevsky offers well-child examinations, consultations and educational programs to families and practitioners in the areas of preventive and holistic health; childhood development; lifestyle changes; nutrition for adults, infants and children; safe, alternative treatments for common and difficult to treat acute and chronic pediatric and adult conditions; vaccination controversies; mindful parenting; and rethinking the medical paradigm. Additionally, he teaches holistic integrative pediatric & adolescent medicine to parents, and medical and allied health professionals, both nationally & internationally, and is available for speaking engagements worldwide.
